To,

**Hope and Life Foundation**

**Name of the Patient:** Baby of Pooja

**Age:** NB

**Gender:** Male

**Medical Diagnosis:** Extreme Prematurity (28 weeks +3 days)/VLBW (840 GM)/LSCS/male/Respiratory Distress/Apnea /Shock/Sepsis/Delivered at 08:45 pm on 18/04/2026

**Suggested Treatment:** Prolonged NICU management with ventilatory and respiratory support for 5 weeks

**Proposed date of Treatment:** As Soon As Possible

This is to sincerely request your kind support for the above-mentioned child, who is critically ill and urgently needs intensive medical care. The family is unable to afford the high treatment costs, and we appeal for financial assistance to help save the baby's life. The estimated amount provided is based on the current treatment plan, though complications may lead to increased expenses. Your timely help can bring hope to this child and family in their time of need.

**Estimated cost of treatment:** Rs 500000/- To Rs 600000/-

Thank You

**Dr. Mohit Kumar Aggrawal**

**Caution**

- Measures to reduce fever for infants should be considered since open infant warming covers absorbable water loss
- Infant should not be left unattended when used in manual mode
- Do not leave baby unattended if any of side panels are open
- Do not ignore any alarm sounds
- Do not pull or force sensor or connectors, secure attachment
- Ensure the power supply is appropriate, certified, approved for hospital use and complies with voltage specifications of the warmer unit.
